

Palette di colori indicati per esterno ed interno , la loro composizione di pigmenti garantisce stabilita' alla luce solare tenendo conto che i toni chiari hanno maggior riflettanza ai raggi solari a differenza dei colori scuri che assorbono piu calore.

Tutti i colori di questa cartella sono riproducibili in pitture e rivestimenti **Acrilico – Acrilsilossanico - Silossanico – ElastomericSilossanico**
Pitture per CLS anticarbonatazione.

Per pitture e rivestimenti minerali a **Calce e Silicato** non saranno riproducibili i colori intensi .CHIEDICI INFO
